Medical Center Boulevard
Winston-Salem, NC 27157-1057

Dear Mr. Ouellette:

The Winston-Salem Regional Office has recently recognized the need to reorganize its files concerning UST closures and documented incidents related to Bowman Gray School of Medicine and Baptist Hospital. It is our hope that this will aid you in meeting requirements, as well as ensuring that all reports submitted will be placed in the appropriate file. I have attached a table outlining the current files our office has listed on the database. Some file names have been changed and I urge you and your consulting companies to provide the file name exactly as it is written on the attached table for all future correspondences.

Your patience and understanding is appreciated. Further contact will be forthcoming as reviews may prompt the need for additional work. I will direct all correspondence to your attention. If you have any questions, or feel that the data provided is in error, feel free to contact me at the letterhead address and/or telephone number.

Sincerely,

Sabra M. Elder
Hydrogeological Technician II
